

JEROME R. CORSI has published twenty-five books on economics, history, and politics, including six *New York Times* bestsellers, two at #1. From 2004–2016, Dr. Corsi was a senior editor at WorldNetDaily.com, where he authored hundreds of articles.

The Truth about Energy, Global Warming, and Climate Change will be his third book on energy, climate change, and global warming. In *Black Gold Stranglehold: The Myth of Scarcity and the Politics of Oil* (2005), co-authored with Craig R. Smith, Dr. Corsi correctly predicted that oil would hit \$100 a barrel when oil industry experts thought a price that high would never happen. In *The Great Oil Conspiracy: How the U.S. Government Hid the Nazi Discovery of Abiotic Oil from the American People* (2012), Dr. Corsi argued that German chemists in the Weimar Republic formulated the chemical equations describing how abiogenic hydrocarbons are created in the mantle of the Earth.

Currently, Dr. Corsi is working to assist his wife, Monica, the founder of Corstet LLC, and her new website <https://corstet.com>. Dr. Corsi has retired from active involvement in current politics to devote full-time to writing books. He resides with his family in New Jersey.

THIS BOOK EXPOSES THE TRUTH THAT THE CLIMATE CHANGE HOAX IS A POLITICAL MOVEMENT AIMED AT ELIMINATING CAPITALISM BY SPREADING ALARMING DISINFORMATION THAT IN ORDER TO “SAVE THE EARTH” FROM GLOBAL WARMING, WE MUST REDUCE CARBON DIOXIDE EMISSIONS BY SWITCHING FROM HYDROCARBON FUELS TO RENEWABLE ENERGIES.

The Truth about Energy, Global Warming, and Climate Change: Exposing Climate Lies in an Age of Disinformation reveals a science-based understanding of Earth’s climate and temperature that Green New Deal proponents are trying to hide. In the pages of this book, you will see scientifically documented evidence for many facts that the radical left denies.

Want to know the truth about how energy, temperature, and climate work? Read *The Truth about Energy, Global Warming, and Climate Change*—but prepare to be shocked. Jerome R. Corsi has conducted a tour-de-force examination of peer-reviewed climate science that exposes the neo-Marxists behind today’s anti-capitalist global warming hoax.

“Corsi’s new book is a trove of information, especially about the people and motives that have driven the current climate frenzy.”

—**DR. WILLIAM HAPPER**, Professor Emeritus in the Department of Physics, Princeton University

“Corsi proved to be a powerful enough mind to brilliantly deconstruct a seemingly scientific topic, the fight against climate change.”

—**DR. LUBOŠ MOTL**, physicist, former faculty at Harvard University

EXPOSING CLIMATE LIES in an AGE OF DISINFORMATION

JEROME R. CORSI, Ph.D.

FORWARD BY and DEDICATED TO MARC MORANO, CLIMATEDEPOT.COM

SINCE 1995, the Intergovernmental Panel on Climate Change (IPCC) has led the scientific effort to document and develop a policy advancing the argument that anthropogenic CO₂ emissions resulting from burning hydrocarbon fuels are causing a climate change disaster of unprecedented proportions.

In this book, Jerome R. Corsi exposes the political, scientific, and economic reasons for concluding the IPCC is an advocacy creation of the United Nations that masquerades as a scientific research community to push climate hysteria for globalist political purposes. Drawing extensively on scholarly published peer-reviewed literature in the fields of climate science, geology, astrology, energy physics, and statistical methodologies, Dr. Corsi reframes the global warming argument from the realm of politics to the sphere of science where the discussion properly belongs.

Corsi explains how IPCC scientists have resorted to using fraudulent research methodologies to rig Earth temperature data to make their claim that anthropogenic CO₂ emissions have caused unprecedented global warming and catastrophic climate change in a pattern that became evident in the late 1990s. He documents how the Biden administration has entered a new area of politicized science, waging war on hydrocarbon fuels even if public policy dictates that mandating the use of renewable energies amounts to energy disaster and economic suicide.

The Truth about Energy, Global Warming, and Climate Change is a definitive source of information for why the neo-Marxist “Green New Deal” must be defeated. Dr. Corsi establishes his case with carefully reasoned scientific arguments that are well researched and fact-based.
